

LEAD CONTRACTORS AND HOME TESTING SUPPLIERS

This list has been supplied by the Elkhart County Health Department but should not be construed as a recommendation or endorsement of any laboratories, consultants or corporations nor is it a complete listing of all service providers. Any employment or services resulting from the use of this list will be at the sole risk of the employer. Consumers should confirm that the service providers they hire have current applicable certifications for the work they are to perform. Some contractors may have a representative take a sample in your home and others prefer that individuals mail or physically bring the sample to the laboratory. **Make sure to call ahead to make sampling arrangements.**

DO IT YOURSELF

HOMETEST

1-800-604-1995 Ext. 341 for customer service

WWW.HOMETEST.COM

They have two consumer kits. One kit costs \$19.99 and you can get 2 samples analyzed for lead. The other kit is \$56.99 (LeadsMart Deluxe package) and you can get 6 samples analyzed. They can analyze for dust wipes, paint, soil and water. These are kits that consumers may purchase. They do NOT come to your home and test for lead. They also deal with radon and mold issues.

LEADCHECK SWABS

HybriVet Systems, Inc.

Framingham, MA 01701

1-800-262-LEAD (5323)

OTHER PRODUCTS

LEADX®

254-587-2445 WWW.LEADX.ORG

This is a patented Heavy Metals scavenger. Applications include lead paint removal, soil remediation, hazardous waste treatment and water filters. A molecular bonding occurs immediately upon contact between LEADX® and most heavy metals including LEAD. Once bonded, the combination of LEADX® and heavy metal is permanent. The bonded materials are then safe and non-toxic to humans, plants and animals.

LEAD BLOCK (an encapsulating coating which is bitter tasting)

This forms a barrier that blocks, coats and seals harmful lead based paints on interior and exterior surfaces.

GLOBAL ENCASEMENT, INC./LEADLOCK

132-32 Street

Union City, NJ 07087

1-800-266-3982

WWW.ENCASEMENT.COM

LEADLOCK, per website is a “tough, non-toxic, liquid applied coating process that is extremely effective in helping prevent lead poisoning. LeadLock products are suitable for interior and exterior use over most smooth or irregular surfaces that contain lead-based paint. These surfaces include bare or painted wood, plastic, metal, drywall, ductwork, pipes, cement, cement blocks, bricks, Transite, bridges, water towers, and steel decks.”
